

The Complete Contractor Compliance Management Solution

Contractor Health and Safety files are traditionally thick lever arch files with hard copy documents which include legal, regulatory, and site-specific documentation.

Some of the challenges with these paper-based files include:

- ✓ Keeping documents up to date
- ✓ Managing expired items
- ✓ Identifying missing documents
- ✓ Confirming individual competence
- ✓ Manual monthly audits
- ✓ Complexity of managing compliance for:
 - * Contracting companies
 - * Employees
 - * Equipment
- ✓ Reporting and trending on compliance levels:
 - * Contractor compliance
 - * Site compliance
 - * Corporate compliance.

HSEC Online® enables companies of all sizes to track document compliance for the company, its people and equipment. It provides a transparent, collaborative workflow platform to share all your documents securely.

HSEC Online® is a cloud-based solution; it is accessible on any device, at any time. It enables you to store digital copies of all documents and to receive automatic notifications and reminders that require your attention.

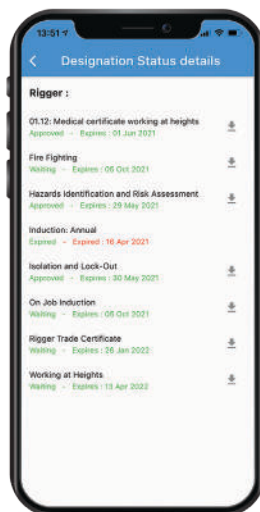

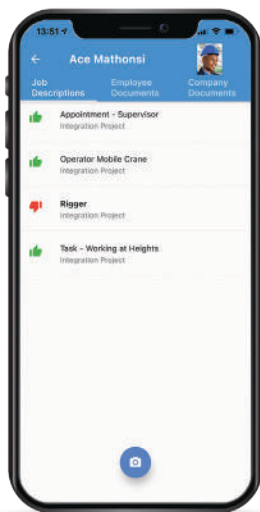

HSEC Online® mitigates these risks by digitising your safety packs, giving you line of sight of the level of safety compliance for all your contracting companies, employees and equipment.

- ✓ Approval / rejection of files
- ✓ Notifies contractors and client of level of compliance of Safety File
- ✓ Documents readily available from anywhere
- ✓ Multi-tenanted: allows Contractor to share updated documents with multiple clients.

Site compliance reporting and trending

- ✓ Dashboard reporting gives you compliance trends over time: compliance levels, number of contractors, number of individuals on site
- ✓ Fully customisable and configurable to your needs and focus points
- ✓ Configurable graphs
- ✓ Export to Excel for analysis
- ✓ Drill downs to view details.

Corporate / Group Level Reporting

- ✓ Enables you to compare compliance levels across all sites so you can benchmark and focus on sites that require attention
- ✓ Export to Excel
- ✓ Drill down to view details.

Don't be reactive, get proactive with HSEC Online®!
