WHY HSEC ONLINE® SAVES CONTRACTORS MONEY

HSEC Online® is an affordable cloud-based solution that enables organisations and personnel to easily capture, distribute and collaboratively manage Health and Safety document compliance online and in real-time.

Contractors using HSEC Online® can enjoy the following money saving benefits, because HSEC Online®:

- Is an affordable, simple to use, web-based solution.
- Is accessible from anywhere in the world, at any time of the day or night, from any device.
- Has been proven to eliminate the hours of wasted time and save thousands in operational costs when trying to maintain expiring documentation through a manual process.
- As a cloud-based system, HSEC Online® dramatically decreases the hardware costs and resources of an IT solution.
- Caught at a client without your paperwork? Simply logon to HSEC Online® from their PC or from your mobile device and download the required documentation.
- Storage of all your documents, including all history, in a secure cloud-based repository:
 - Secure backups in separate geolocations, and server redundancy
 - Easily accessible archived documents.
- Shared documentation: online collaboration between corporates and contractors:
 - Easy to use 'Drag and Drop' functionality to upload files
 - Intelligent algorithms distribute a single document to multiple clients or projects eliminating repetitive time-consuming work
- No need to physically deliver documents to a site - remote site approval for contractors and equipment
- Provides transparency between the corporate and contractors resulting in a shared awareness and general understanding of real-time compliance.
- Maintains all aspects of your documentation and compliance:
 - company
 - employee
 - equipment, and
 - suppliers' information.
- Ensures documentation and certifications are valid and up-to-date:
 - Reminds you of possible non-compliance and expiry.
- Reduces the risk of your organisation's non-compliance for regulatory and legal compliance, ensuring you comply with necessary Health and Safety standards and provides a credible track record.
- Completely customisable system for any scenario.
- Generates reports on any information stored in the system.
- Short implementation period for both contractors and corporates.
- Proven track record in multiple industries and countries.
- 24x7 Support Team:
 - Online training
 - Free online 'Power Hour' training session.
